

AMERICANWAY

S FOR THE MODERN TRAVELER

Closer to town, he'd take you to the man-made outdoor hot tubs known as Ten Thousand Waves. "It's a great experience to get into their hot tubs. They're all outside and they're private, so you can have your own. Or there are a couple that are publicly shared for less money. But all of the masseuses and everything are pretty great. What people aren't aware of is that they have rooms there. They take care of you."
